

FeeAnalyzer.com

Online Medical
Coding Software

FeeAnalyzer.com is an online subscription service that provides access to relative and actual physician charge data for services in a specific geographic area, based on Geozip. In addition, it includes national charge data for HCPCS Level II codes. These are the fees your competition is charging. Medicare fee schedules are also integrated for a complete perspective.

This powerful data source makes it easier for physicians to set defensible fees while maximizing revenues. FeeAnalyzer.com data is updated throughout the year to ensure you have immediate access to the most current information available.

Key features

- **Simultaneously evaluate three of your own payer fee schedules against physician billed charges and Medicare fees.** Includes CPT®, CDT and HCPCS Level II codes.
- **Review fee schedules sooner.** No more waiting for your hard-copy book. Access the most current data available, updated throughout the year.
- **Purchase additional Geozips.** Analyze how charges may vary for additional office locations or for your competitors in other geographic areas.
- **Reference multiple percentiles of national charge data for CPT®, CDT and HCPCS Level II codes.** Multiple percentiles facilitate more accurate adjustment of charges.
 - CPT/CDT: 50th, 60th, 75th, 80th and 95th percentiles of charge data in your area to benchmark where your charges fall relative to those of your peers
 - HCPCS Level II: 25th, 50th, 75th and 85th percentiles of national charge data for HCPCS supply and service codes
- **Develop fee schedules with Fee Loader.** Import and modify your practice's fee schedule using commercial charge data and Medicare fees for comparison. Import up to three payer fee schedules for added analysis capabilities. Export revised fee schedules.
- **Leverage real-life claims data.*** Access data compiled from more than 2.5 billion current charge records.

FeeAnalyzer.com makes it easier for physicians to develop and maintain competitive, defensible fees. Improve revenue by accessing and referencing:

- Relative and actual charge data from FAIR Health, Inc.
- CPT®, CDT and HCPCS Level II codes
- Medicare fees and relative values
- Data compiled from over 2.5 billion current charge records
